

NATALIE PIKUL

Author, resin and mixed media artist, industrial engineer, and certified trainer (AEVO).

Natalie Pikul is an author, resin and mixed media artist, industrial engineer, and certified trainer (AEVO). Since 2018, she has worked intensively in resin art, combining artistic practice with knowledge about the safe handling of epoxy resin. In parallel, she has worked in marketing since 2018, primarily in social media, and completed a social media marketing qualification with the Dortmund Chamber of Commerce and Industry (IHK) in 2024. In 2025 she published her book Safe Resin Art, followed by the English and Spanish editions in 2026. She lives in Dortmund, Germany.

INTERVIEW TOPICS

Safe handling of epoxy resin

Health and safety beyond half-knowledge and myths.

Resin art between craft and material science

Artistic practice and basic chemistry knowledge.

From industrial engineering to art

From construction site manager to resin artist and author.
